

Punch thick stacks of
paper easily using
the Nagel electric punch

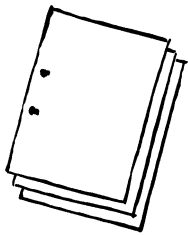

CITOBORMA 111 ELECTRIC PUNCH

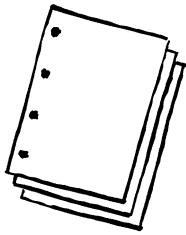

The Nagel electric punch can be used anywhere where a manual perforator is inadequate in banks, local authority offices, printers, trade and industry, legal and accountancy practices and much more.

The Citoborma 111 easily and safely punches stacks of paper up to 5 cm thick. With no effort, efficiently and quickly.

The hole patterns for common filing systems are supplied pre-set as standard. Any special hole patterns can be provided at any time.

Two holes

Four holes

Filofax time planner

Labels

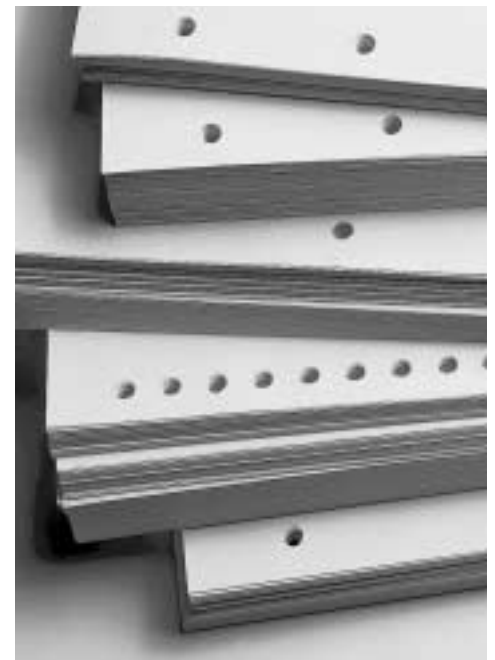

... and any special hole patterns

Punch a stack 5 cm thick without effort using special Nagel paper drills.
