

CITOBORMA 90

HIGH PERFORMANCE DRILLING MACHINES

WE CREATE A PROFESSIONAL IMPRESSION

The new drilling machine generation.

■ The Nagel Citobormas are known world wide as the industry standard for twin or single spindle drills. The Citoborma 90 drills cover a wide range of applications and are remarkably user-friendly.

The standard version of the Citoborma 190 and 290 comes as a table top model. They are available with one spindle, two fixed spindles or two spindles with variable distance for any combination of holes to be drilled.

NAGEL CITOBORMA 290 B
with treadle.

Options

- To increase productivity all table top models can be upgraded to foot treadle operation or power stroke.
- 3 phase model available at no extra cost.
- Drill bit cooling for difficult material.

Features

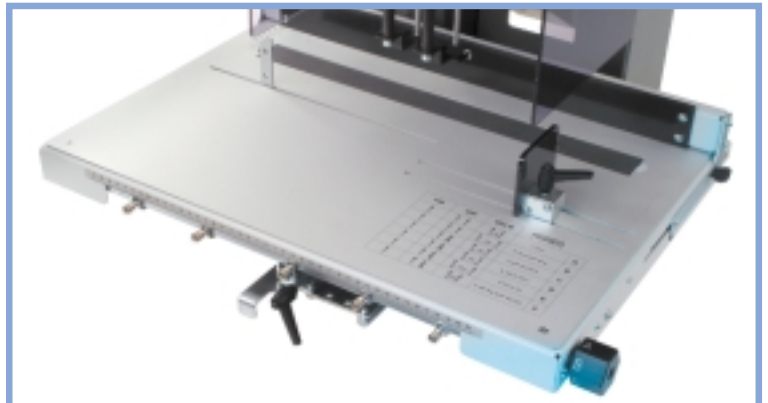

- Unique quick release FlexoDrill® sliding table.
- Suitable for drilling paper, cardboard, plastic, textiles, leather etc.
- 6 preprogrammed hole patterns set-up within a second.
- Additional tabulator bar with interchangeable stops for individual programs.
- Paper width up to 470 mm.
- Throat depth up to 105 mm.
- Smooth drilling process.

NAGEL CITOBORMA 290 AB.

The high comfort FlexoDrill® sliding table with remarkable features.

- Automatic release after each stroke.
- Large sliding distance and throat depth.
- Centres the paper stack.
- Left side stop is retractable to ensure smooth and fast access.
- Takes large formats.
- Individually programmed tabulator bars are interchangeable.
- Table can be fixed at any position if required.

For operator's convenience: The quick release FlexoDrill® sliding table.

Preprogrammed hole patterns: Set-up within a second.

NAGEL CITOBORMA twin-spindle 290

- Model **Citoborma 290 B** with two self-centering spindles that can vary in position between 45 – 160 mm. Allows any combination of holes to be drilled.
- Model **Citoborma 290** with fixed centres 80 mm. Achieves the two hole pattern in one stroke.

NAGEL CITOBORMA 290 B
table top.

NAGEL CITOBORMA 190

- Single drill spindle for any hole pattern. Same precision as the larger models.

Technical specifications

Model	290 AB	290 B	290	190
Number of drill heads	2	2	2	1
Max. pile height (mm)	60	60	60	60
Max. paper width (mm)	470	470	470	470
Max. throat depth (mm)	105	105	105	105
Drill bit sizes (mm)	2 – 20	2 – 20	2 – 20	2 – 20

NAGEL-drill bits with colour-coding.

Type 1 quality

- Green colour-coding.
- High-speed steel.
- Suitable for offset, copying and typing paper and board.
- Recommended for all manual drilling machines.
- Excellent value for money.

NAGEL drill bits:
2 – 35 mm diameter;
50 – 60 mm cutting length;
options for special applications.

Drill bit care

- Nagel-waxpaper.
- Nagel-drill sharpener.

Teflon quality

- Blue colour-coding.
- Teflon-coated high-speed steel.
- Suitable for coated papers and board, plastic, films and rubber.

HD quality

- Yellow colour-coding.
- High-speed steel with high-density special coating.
- Service life up to four times that of type 1.
- Suitable for art paper and illustration printing paper.
- Top performance in high volume applications.
