Coutron AT

The perfect solution for counting digital stocks.

Key product features:

- Counts up to 1500 sheets per minute
- Counts stocks up to from 80-400gsm
- Tab insertion for separating printed batches
- Pile height (up to 220mm)
- User friendly operation

The Coutron AT is a world leading machine designed uniquely to count up to 400gsm paper / card making it ideal for any printer with a need for counting and separating cards by batch.

The new counting system prevents any damage to corners of printed jobs or blank sheets. This is achieved by separating the stack using a twin blade system, designed to take the stress off the sheets. This makes the machine the perfect addition for printers, who until now, have been unable to count their stock, printed or new and separate sets with paper tabs.

Inserting paper tabs in between batches can save hours of laborious manual job splitting before and after the print finishing process.

Countron AT

The perfect solution for counting digital stocks.

Technical specifications

Basic function	Count, tab tape insertion (every 2 to 1,000 sheets)
Maximum paper size	330(W) x 700(L) mm
Minimum paper size	210(W) x 210(L) mm
Minimum finished work size	85(W) x 50(L) mm
Paper weight	80-400gsm
Operation	Control panel / keypad
Max pile height	220mm
Speed	0 to 1,500* sheets per minute
Dimensions (approx)	W900 x D1085x H1400mm
NET weight (approx)	260kg
Power supply	110,115, 220, 230, 240 VAC, 50/60Hz

(* Target speed)

Options

- Air table
